QCI provides superior Basketball court construction and surfacing for optimal performance. Our expertise in planning and design, innovative technology, and dedicated craftsmanship makes your basketball court more attractive, last longer and play better.

QCI DELIVERS UNMATCHED QUALITY THROUGH...

VALUE

Attention to detail makes the difference. Each soil sample, measurement, laser level, slope, gradient and angle of your slab is the key to the quality and longevity of your investment.

- Exceptional materials including superior concrete mix design, highest grade fencing, and the latest state of the art lighting and surfacing systems
- Tournament quality basketball goal systems and accessories
- Technically advanced surfacing systems designed, engineered and expertly constructed
- Vibrant surface coatings in a variety of colors designed to provide unparalleled durability

EXPERIENCE

- Premium basketball court construction and surfacing at the highest level of competition since 1999

SERVICE

- Complete, turnkey sports construction entailing on-site assessment, design/build, budget planning, and comprehensive project coordination
- Custom basketball court construction based on our expert assessment of site conditions
- Stamped engineered drawings to provide optimal structural integrity for your slab based on your site conditions
- Unequaled service before, during, and after your project

A FULL SERVICE TOTAL SPORTS AND RECREATIONAL CONSTRUCTION COMPANY.

COVERING YOUR SURFACING NEEDS

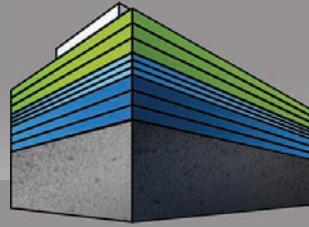

QCI TOP COAT

When your existing court needs to be revitalized and given new life, our Top-Coat service is the product for you. We'll do simple repairs, touch-ups, repaint and re-stripe to make your court look and play like new.

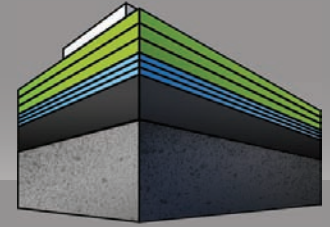

QCI CLASSIC

The QCI Classic Basketball System is used when you need a true basketball surface or resurfacing job including patchwork, acrylic surfacing for existing or brand new courts. Perfect for schools, colleges, and all hard-courts.

QCI PREMIER

The Premier system is our entry level soft-court cushioned system. We use a liquid acrylic cushion to provide a slight "give" to the surface, making play easier on joints. The feel of the court is exceptional and luxurious, making it a perfect fit for private athletic facilities and residential courts.

QCI SUPREME

For high-end use, there's nothing better than Supreme. It has the soft comfort of clay courts without the sliding effect of clay. Perfect for private residential and elite basketball courts.

WE'VE GOT YOU COVERED!

Whether it's a last minute backyard pick-up game or a well-planned community event, your basketball court should be up to the challenge, and QCI courts are THE standard for quality courts in the industry.

We offer a comprehensive **Three-Year Warranty** covering defects resulting from labor or craftsmanship inadequacies.

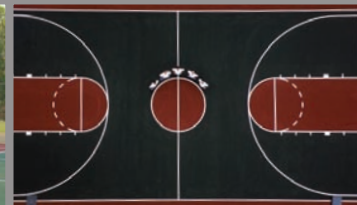

PRACTICE WITH THE PROS

With 60 years of combined experience in the industry, we're the all-stars of court production.

The NBA's New Orleans Pelicans/Hornets, chose QCI to design and build the highest quality basketball court, as a gift to their community.

"I think the Picard Park courts look great and are EXCELLENT first ever Pelicans Courts!"

—Sam Russo, *Consultant at New Orleans Pelicans*
